

ePrepare Mobile

The on-the-go management solution for electronic real estate documents

ePrepare® Mobile from **Corporation Service Company® (CSC®)** is a free app for managing electronically submitted real estate documents from your mobile device.

Available for iOS® and Android™ systems, ePrepare Mobile offers CSC clients a simple and secure way to monitor the recording status of documents, inspect document details, review document rejections, and more.

With ePrepare Mobile, you can manage your documents on the go—without being tethered to a desktop or having to call county offices.

ePrepare Mobile makes it easy to:

- ✓ check the status of documents submitted for recording
- ✓ get daily metrics for recorded documents
- ✓ view documents and inspect their details, including:
 - » recording dates
 - » stamps and seals
 - » total recording fees
 - » book, page, and instrument numbers
- ✓ review rejected document details, including full rejection reason

The ePrepare Mobile application requires the use of ePrepare®; CSC's web-based document preparation solution. ePrepare enables document submitters such as title companies, law firms, and financial institutions to eRecord real estate documents with county recording offices throughout the U.S. The application saves time, reduces processing costs, and improves data accuracy. Account access via the ePrepare Mobile app is managed by the client's system administrator through the desktop version of ePrepare.

Simply search for "ePrepare" to get the free app.
